Iran had in November 2013 offered free delivery of crude oil to Indian refiners as tough Western sanctions crippled its exports. With shipping lines refusing to transport Iranian crude for fear of being sanctioned, Iran used its shipping line for the delivery and did not charge for transportation.

Consumption of electricity to touch 4 tn units by 2030

PNS ■ NEW DELHI

India's electricity consumption will increase four times from about 1.1 trillion units to 4 trillion units by 2030. "Despite massive roll-out of energy efficient schemes, we still see a possible 10 per cent jump in the electricity growth annually for the next 15 or 16 years," Coal and Power Minister Piyush Goyal said while delivering keynote address at a conference on 'The Future of Electricity' here on Tuesday.

"Indian Electricity sector, to my mind, is possibly the biggest business opportunity the world has to offer today. So India is a bright spot offering a huge trajectory of growth in the electricity consumption going forward," he added.

The fresh demand for power will come from the 230 million people who will get electricity for the first time, the elimination of diesel generation sets because of access to power and from increased economic activity coming from the Make in India campaign, he said.

IT department's PAN-Aadhaar linkage crosses 50-lakh mark

PNS ■ NEW DELHI

The Income Tax department's ambitious plan to link its PAN number database with Aadhaar has crossed the 50-lakh mark. The Central Board of Direct Taxes (CBDT), the policy-making body for the IT department, had launched the initiative of linking the two databases Permanent Account Number and Aadhaar - late last year to start a safe and quick electronic regime for taxpayers when it comes to filing income tax returns and subsequent ensuring of a host of tax-related services.

"The PAN-Aadhaar linkage crossed the 50 lakh mark late on Tuesday. The number as of today stands at 50,57,016. The department wants these numbers to grow so that the full e-regime in the delivery of taxpayer services can be ushered in as soon as possible," a senior official said. Also, the one-time password-based ITR filing system for taxpayers has crossed over 80 lakh e-verification mark. "The exact figure for e-verified ITRs stands at 83,55,337," the official said.

The new e-filing system allows online verification of a persons' ITR by using either the Aadhaar number, internet banking or bank account along with email and mobile number, thereby ending the practice of sending paper acknowledgement to the Centralised Processing Centre (CPC) of the department located in Bengaluru.

The online ITR filing portal of the department is available at <https://incometaxindiaefiling.gov.in>.

According to the rules notified in this regard by CBDT in July last year, any taxpayer whose income is ₹5 lakh or below per annum and has no refund claims can straightaway generate the Electronic Verification Code (EVC) for e-filing and validating their ITR through their registered mobile number and e-mail ID with the department.
